

## Life

Life is a grand dance  
It gives everyone an opportunity  
To participate in the game of love  
Learn, work, dance and bounce  
Find a suitable partner  
And take a chance

Life is a colorful ball  
That loves to dance  
It goes up, it goes down  
It goes forward, it goes backward  
But no matter what you do to it  
It never fails to bounce

You kick it with your foot  
Hit it hard with your head  
Throw it with your hand  
It remains the same exciting ball  
Every time it scores a goal

Life is an eternal river  
It branches out and winds down  
Provides water and fish forever  
It feeds man, bird, plant and animal  
Never loses its charm or vigor  
Or fails to make dreams enchanting

And living the greatest thing ever

Life is body and soul

We eat to nourish it

Exercise to build it

Learn and laugh to nurture it

Think and work to enrich it

And teaches us how to enjoy it

Smoking destroys body and mind

Make man an aimless, drunken blind

He cuts his hand every time he uses a knife

And blames others for all mistakes of life

Life is how we think of life

What we see, feel and imagine

What we do and dream of doing

What we suffer and enjoy living

What we achieve and fail to achieve

Life is what we make of life
